

THE SMARTER WAY TO HOA™

Willow Creek 3 Project Notice

Walking Path Replacement

Please see the below details regarding the replacement of the walking path as shown on the map on page 2 of this notice.

**Monday, August 12 through Tuesday, August 20th –
(weather permitting)**

Work hours – 7:30 AM – 6:30 PM

- Staging – equipment, vehicles and portable toilet will all be staged at the North end of the walking path as indicated by the red line.
- Work will start at the North end of the walking path on Monday, August 12th and progress toward the south end through completion.
- Each work day will consist of removal of old asphalt walking path and installation of concrete. Any asphalt that is removed will be replaced with new concrete the same day.
- **Please be advised that the entire path is closed to resident access for the duration of the project.** We anticipate that the path will be opened to residents on Wednesday, August 21st.
- Additional access points will be used at other locations during the project indicated with red dots on the map. These points will only be used as needed for the closest access to sections of the walkway. We anticipate that these access points will only be used for 1-2 days each.
- Communication – if there are any questions or concerns regarding the project, please contact Matt Egan at RowCal. Please refrain from attempting to speak with the crew as they only follow instructions that are communicated from RowCal and through their chain of command.

As with any project of this type, there will be noise from the equipment and from the removal of old asphalt. We thank you in advance for your understanding and cooperation and look forward to this much improved amenity for the benefit of all residents.

Thank you.
